| <p>REFERENCE(S)</p> <p>EGOA-14075, dated 3 April 1961 <i>Leavin Rask held 11 Apr 61</i> f: [] []</p> <ol style="list-style-type: none"> From the number of CALLIKAK reports provided since Reference, it becomes clear that Subject is going full tilt in re-establishing himself in business. The correspondence with G. Rischer in Damascus is particularly heavy, and the recent CALLIKAK reports establish that the signature on these letters is Rischer rather than Fischer as noted in paragraph 5 of Reference. In order to speed dissemination to affected or interested addressees the following pertinent extracts from a letter written by Rischer to Subject dated 25 April 1961 are quoted below. <p>"Dear Comrade Beisner,</p> <p>May I right at the beginning acknowledge your two letters with thanks, and immediately reply to your questions in the letter of 16 April. The man lives in Beirut in Myrtoun House (American plan), telephone 226068, and reportedly flew to Germany two days after Easter; this would have been 4 April. It is further reported that he is expected back soon and urgently. [] [] also numbers among his friends but [] [] always denies when in Damascus that they are friends. He (the man) is interested in every German who appears in Beirut. I can also assure you that there exists genuine, black and white evidence that he is very strongly interested in transport routes. I would not want to write any more in this letter today since you will probably come here at some occasion after all.</p> <p>"The fat one doesn't write any more since Easter. I thought already he had keeled over (note: to be read in the sense that the fat one had switched sides), but then he would have written even more. Please, could you call him and in passing gain some information? Do not tell, however, that I have written to you. Apparently he underrated the man from Myrtoun House after all and the latter has now stopped all of his work. He has sent me already the introduction to his article which was really excellent. Or has something happened to him? Please drop me a line on this one.</p> <p>"....Please, could you obtain for me the article from the East Zone paper? I would be most grateful and I would like to use it to call the attention of my friends to the wind in this direction. By the way, the new book by Wiesenthal, 'I Hunted Eichmann,' you must read by all means.</p> <p>"Yesterday I spoke with Engineer Branco who sits in the 'big projects division.' He did not remember knowing you personally. In regard to the Yusuf Pascha Dam project, he said that it will take at least a year, if not longer, until the 'Lastenheft' can be issued. The project itself is figured to take five to six years. From this you can judge the size of it. He also told me that an Engineer Kramer of Kunze & Co., Munich, is in Damascus just now and is collecting his own information in connection with the Yusuf Pascha Dam."</p> <p>The remaining two paragraphs of this letter concern business deals of possible interest to Beisner but do not mention individuals.</p> | | | |

| <p>3. From previous correspondence and the attachment to EFOA-5780, it is clear that the name of paragraph one of the above letter is Herman Schaefer ([]), and that the "fat one" in paragraph two of the above letter is Karl Helms Speeth, previously mentioned in EFOA-53882 and EFOA-14075. The correctness of this interpretation is further shown by the fact that Hischer refers to "the fat Speeth" in a letter of 15 April 1961 to Subject.</p> <p>21</p> <p>Distribution: 2 - C/EE 2 - C/MD 2 - C/MS 2 - [] 1 - C/EE</p> | | |
